A cream of baking powder.  
Highest of all in leavening strength.  
—U. S. Government Report, Aug. 19,  
1880.

**FREE, FREE, FREE,**

AT THE  
**Fair Store!**

A Large Crayon  
Portrait of Your-  
self

FREE OF CHARGE.

In order to advertise our business  
more extensively and in a desirable  
manner, we have decided to present  
our customers a splendid enlarged  
portrait of yourself or friend. The conditions  
on which you receive this beautiful  
and appropriate gift are exceedingly  
light and worthy your consideration.

We Will State Them in Few Words:

Buy \$15.00 worth of goods by paying  
us the very lowest cash price and the  
deed is done. You can then furnish  
us with a cabinet photo, panel, tins  
or other picture of yourself or friend,  
and we will have it enlarged at once,  
and present it to you absolutely free  
of charge.

The size of the picture will be 14x17  
inches and the frame 25x28 inches,  
the latter being of late design in antique  
steel, bronze, or gilt. These pictures  
are from the studio of one of the best  
artists in Chicago, and were never sold  
for less than \$10 or \$15 without frames.

Remember, we do not ask you to  
buy large bills at any one time, but  
will furnish you with card, on the  
margin of which are placed figures of  
convenient amounts, from 25 cents to  
\$1.00—making a total of \$15. When  
you make a purchase we punch out a  
set of these figures, and when all are  
punched out we will present you with  
the picture.

Call at our store and see a sample of  
the work, and please do not forget that  
we give the picture of YOURSELF,  
WIFE, CHILD, FRIEND, FATHER,  
MOTHER, SWEETHEART, or last,  
but not least, MOTHER-IN-LAW, free  
of charge. "A thing of beauty is a joy  
forever."

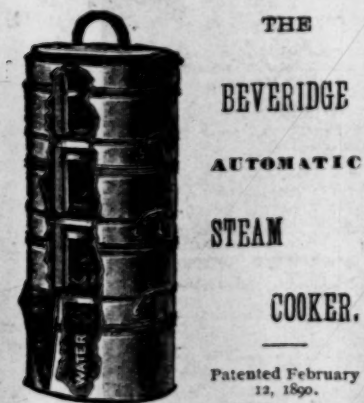

What could be nicer for home  
adornment than one of these elegant  
CRAYONS?

We have also made arrangements  
with a large frame manufactory to  
mount and frame these portraits for  
our patrons in the best style at one-  
fourth the usual cost of such frames.  
You can have either gilt or bronze  
frame with first-class French plate  
glass, all ready to hang on the wall.

YOU ARE, HOWEVER, NOT  
OBLIGED to purchase a frame at all,  
or you can purchase it at some other  
store. This does not matter to us; we  
give you the picture and sell you the  
frame at cost if you wish it.

Yours Generously,

The Fair Store,  
RENO, NEVADA.  
W. F. M'GEE, MANAGER. 1616

The latest improved and best steam cooker  
in the market.

Food cooked in this steam cooker retains  
the entire flavor and nutritive qualities, and  
is healthy and more digestible.

## APACHE OUTLAW

Who Are Hunted by  
Their Own Race.

AN OCEAN STEAMER LOST.

The Estimated Population of  
Colorado.

Press Opinions on the Behring  
Sea Controversy.

A fire at Pine Bluffs, between Chey-  
enne and Omaha to-day, cut off all the  
Western Union wires and rendered  
our to-day's report very meagre.

Press Opinions On The Seal Fish-  
eries.

New York, July 24.—The Times  
says: In the controversy between  
Secretary of State Blaine and Lord  
Salisbury, the former distinctly has  
the better of the argument. The situa-  
tion as disclosed by the diplomatic  
correspondence is anything but reas-  
suring, and there is great danger that  
the complication may become still  
more serious.

The Herald does not think that  
Blaine has added to his diplomatic  
laurels in the Behring Sea correspond-  
ence, but says: The interests both of  
the United States and England will be  
best served by a satisfactory agree-  
ment for the protection of the seal  
fisheries.

The Tribune says: We bought  
those seals, we paid for them, we have  
nourished and protected them. Our  
people here and in Alaska obtain a liv-  
ing from them. They are a source of  
national revenue, and British states-  
men are unwontedly dull if they im-  
agine that we are going to lose all this  
simply to enable a few persons in Brit-  
ish Columbia, without right or interest,  
to wrest illegal fortunes during the few  
years that remain before they shall  
have utterly exterminated the seal  
herd, and Lord Salisbury cannot too  
promptly convince himself of that fact.

Fighting the Devil With Fire.

GLOBE (A.T.), July 24.—Particulars  
of the recent killing of the Apache  
convict, Pashlatah, and the capture of  
Curley, a confederate, have been ob-  
tained from an official source. Three  
Indians who were in the employ of the  
military authorities met three of the  
outlaws and gained their confidence.  
The whole party camped together, and  
in the evening the outlaws were at-  
tacked, and Pashlatah was killed. It  
is thought that another one named  
Sayes was wounded, but he and Curley  
escaped. Troops were sent out to take  
up the trail, and Curley gave himself  
up and was taken to San Carlos. The  
hunt for Sayes still continues. Pash-  
latah and Sayes were among the con-  
victs who killed Sheriff Reynolds last  
November.

Anticipated Trouble.

By Cable and Associated Press.  
CONSTANTINOPLE, July 25.—Neliidoff,  
the Russian Ambassador to Tartara,  
Turkey, has presented a note from  
Russia to the Porte declaring that the  
granting by Turkey of the concessions  
demanded by Bulgaria would humiliate  
the Sultan. The Bulgarian demands,  
the note says, are maneuvers to  
strengthen the tottering throne of  
Prince Ferdinand and his illegal rulers.  
Furthermore, the note says, Bulgaria  
is hostile to Russia, and that the  
Porte's concession to that principle  
would be an unfriendly act towards  
Russia and might lead to serious  
consequences.

Sawmill Burned.

Oroville (Cal.), July 24.—A saw-  
mill situated at Berry creek, about 20  
miles from here on the Quincy road,  
together with about 50,000 feet of lum-  
ber, was destroyed by fire this morn-  
ing. The loss is about \$15,000. The  
mill was owned by W. P. Lathrop.  
The fire from the mill caught in the  
woods and is spreading with great ra-  
pidity. Much damage has been done.  
This has been the hottest day of the  
season here, the thermometer standing  
at 104 in the shade.

Colorado's Estimated Population.

By Associated Press.  
DENVER, July 24.—The two Census  
Supervisors for Colorado have so far  
completed their work as to be able to  
announce that the population of the  
State will be very close to 400,000.  
The three largest cities in the State,  
outside of Denver, are as follows:  
Pueblo, 27,455; Leadville, 18,365; Col-  
orado Springs, 11,300.

## Congressional Proceedings.

WASHINGTON, July 24.—The House  
Committee on Invalid Pensions has or-  
dered a favorable report upon the bill  
granting a pension of \$2,000 per annum  
to the widow of General McClellan.

The House Committee on Appropri-  
ations reported the Sundry bill with the  
Senate amendment, and, with cer-  
tain recommendations, it was sent to  
the Committee of the Whole.

Cannon of Illinois moved that the  
House go into such committee for its  
consideration.

This was antagonized by the Demo-  
crats in the interest of the private cal-  
endar, but it prevailed—yeas 104,  
nays 81.

A motion to reconsider was tabled,  
and the House accordingly went into  
Committee of the Whole.

The House postoffice committee has  
agreed upon a substitute bill in lieu of  
a number of pending bills adverse to  
lotteries. Ordered reported to the  
House.

The substitute prohibits lottery cir-  
culars and tickets, lists of drawings,  
money or drafts for the purchase of  
lottery tickets, or newspapers contain-  
ing lottery advertisements or drawings  
from being carried in the mails or de-  
livered by carriers, under penalty of a  
fine not exceeding \$5,000 and imprison-  
ment not exceeding one year imposed  
upon any person depositing such mat-  
ter in the mails. The Postmaster-  
General is also to be authorized, upon  
evidence of the existence of a lottery  
or gift enterprise, to cause registered  
letters directed to such a company to  
be stamped "fraudulent" and returned  
to the senders, and he may also for-  
bid the payment of money orders ad-  
dressed to a lottery company or a gift  
company.

SENATE.

Blair presented a memorial from the  
headquarters of a Grand Army post  
expressing abhorrence at the action of  
Congress in allowing pension agents a  
fee of \$10 in each case, under the re-  
cent dependent pension act, and en-  
closing circulars of a Washington  
claims agent offering to active men in  
certain localities half the fee in all  
cases sent to him. He said he con-  
curred with memorialists in expressing  
the abhorrence.

Cockrell presented a memorial from  
St. Louis protesting against the passage  
by the Senate of the Federal election  
bill, stating that the masses of the  
people are so dazed with the enormity  
of the proposed outrage on the sanctity  
of the ballot that they had not yet  
formulated words in condemnation of  
it. Other memorials against the bill  
were presented from Adrian, Michigan.

The House bill on that subject, on  
motion of Hoar, was referred to the  
Committee on Privileges and Elec-  
tions.

Sherman offered a resolution in-  
structing the Committee on Printing  
to report whether any abuses exist in  
the printing of matter in the Con-  
gressional Record that ought not to be  
printed therein, and report such bill or  
regulations as will limit such printing  
to the actual proceedings in both  
Houses; also, whether it is expedient  
to edit the debates of Congress by the  
omission of such parts as are immor-  
tal and of such papers as are already  
printed as public documents.

The resolution gave rise to some  
discussion, but finally it was referred  
to the Committee on Printing.

Morrill moved to proceed to the con-  
sideration of the Tariff bill.

Gray antagonized the motion with  
one to resume the consideration of the  
House bill to transfer the revenue mar-  
ine service to the Navy Department,  
and the motion prevailed.

Amendments were adopted extend-  
ing the application of the bill to the  
Life-saving Service.

Call introduced a resolution instruct-  
ing the Committee on Interstate Com-  
merce to prepare a bill to compel el-  
evator proprietors to accept grain for  
storage at reasonable rates. It is di-  
rected chiefly against a combination  
of elevator proprietors on the Northern  
Pacific who threaten to refuse grain  
and compel the farmers to sell at once.  
Laid over.

The Tariff bill then came up as un-  
finished business, and Vance pro-  
ceeded to address the Senate.

A Steamer Wrecked.

By Associated Press.  
NEW YORK, July 25.—The steamer  
Idaho, ashore at South Point, will  
prove a total loss. Last night the sea  
was making a clean break over the  
ship, and grave fears are entertained  
for the safety of the crew, who are still  
on board, unless they managed to  
reach one of the wrecking schooners.  
Last night the surf was so heavy on  
shore that it was impossible to see the  
wreck, and there were no life or surf  
boats in the vicinity.

In the rear of W. O. H. Martin's  
store at 2 p. m. this afternoon the big  
two-foot thermometer registered 114°.  
Dan O'Keefe and A. E. Donnelly  
left for Virginia City this afternoon in  
answer to a telegram in order to ar-  
range a pugilistic match between  
Knigh and Tom McCormick, to come  
off next September.

## SALVADORANS

Have Already Won  
Six Battles.

CLOAKMAKERS AT WORK AGAIN.

Three Children Burned to  
Death.

Wheat Crop of France Dam-  
aged by Rain.

The Queen's Favorites.

By Cable and Associated Press.  
LONDON, July 24.—Advises from  
Osborne, where the Queen is now  
stopping, state that her Majesty is  
completely prostrated by the trouble  
with the guards. She has always re-  
garded the Grenadiers as the elite of  
her household troops, and this mutiny  
came upon her as a shock. For the  
past week she has been in daily and  
hourly telegraphic communication with  
the War Office, and has insisted upon  
being kept informed upon every phase  
of the movement.

Before leaving Windsor for Osborne  
she summoned the Duke of Cam-  
bridge, Lord Wolsey and six other  
leading Generals in council to explain  
the deplorable incidents, and she was  
forceful in her denunciation of an army  
system that could permit dissatisfac-  
tion of the men growing to the point  
of a mutiny without receiving some at-  
tention and consideration from the  
authorities. It is stated that Colonel  
Maitland has been summoned to Os-  
borne by the Queen, and will receive  
an audience at once.

The Salvadorans Successful.

By Associated Press.  
LA LIBERTAD (San Salvador), July  
25.—News has been received confir-  
ming the reports of the success of the  
Salvadoran forces beyond the frontier  
in Guatemala territory. The Salva-  
dorian army has now gained six bat-  
tles and captured large quantities of  
arms and ammunition. Many have  
been killed and wounded on both  
sides. The Salvadoran forces are  
pushing their way into the interior of  
Guatemala with success at every step.  
It is the intention of the Salvadoran  
leaders to overthrow the Government  
of President Barrios before coming to  
any agreement with Guatemala.

A Terrible Calamity.

Special to the GAZETTE.  
MONTEREY (Cal.), July 25.—At Ripon,  
San Joaquin county, last night, War-  
ren, the seven-year-old son of G. W.  
Masters, while playing with matches,  
set fire to can of coal oil, and the house  
took fire and was entirely destroyed,  
with its contents. George and Warren,  
the two boys, and a baby girl  
perished in the flames. A seventeen-  
year-old girl was badly burned trying  
to rescue the baby. The mother was  
within a hundred yards of the house,  
but was unable to reach it in time to  
save the children.

The Ill-Fated Egypt.

By Cable and Associated Press.  
LONDON, July 25.—The crew and  
cattleman from the National Line  
steamer Egypt, which was abandoned  
on fire at sea while bound from New  
York for Liverpool, have arrived in  
London. The carpenter of the steamer  
says he believes that the cotton on the  
Egypt was on fire when she left New  
York. He also says the boats of the  
steamer, with the exception of two,  
were worthless.

A Rained Wheat Crop.

By Cable and Associated Press.  
PARIS, July 25.—Crops throughout  
the country, except in sections east of  
the Rhone, have been destroyed by in-  
cessant rains. Official reports from the  
great wheat district of La Blance  
state that the crop is rotting. The  
losses are estimated at 500,000,000  
francs. Dealers in grain are discour-  
aged at the scarcity, and the price of  
bread is rising.

Honored by the French.

By Cable and Associated Press.  
PARIS, July 25.—Riggs and Reit-  
linger, Americans, have been created  
Knights of the Legion of Honor for  
services to the French trade, but more  
especially for the work they did in  
connection with the French Exposition  
last year.

End of the Clockmakers Strike.

By Associated Press.  
NEW YORK, July 25.—All the clock-  
makers who have been on a strike  
since June 16th resumed work this  
morning.

A Liberal Donation.

By Cable and Associated Press.  
LONDON, July 25.—Andrew Carnegie  
has donated £10,000 for a library at  
Ayr.

## Trotting Races.

DETROIT, July 25.—In the unfin-  
ished race for all pacing class to-day,  
Adonis won two heats and the race,  
Gray Harry second and Willard third.  
Time, 2:20 1/4, 2:18 1/4.

In the postponed Horsemen's Great  
Expectation stakes, Allerton won the  
third heat in 2:15 1/4. Margaret S was  
the only other contestant.

It is understood that the owner of  
Margaret S insists that Allerton was  
distanced yesterday, and will bring the  
matter before the Board.

Disappointed Mormons.

By Associated Press.  
SAN FRANCISCO, July 24.—Eight  
Mormons, who arrived in this city  
Wednesday from Salt Lake City in a  
destitute condition, will sail for Hono-  
lulu on the steamer Mariposa Sat-  
urday. They are natives of Hawaii, and  
were induced to leave their island  
homes by Mormon Elders. When  
they arrived at Salt Lake City the  
Mormons deserted them, and they  
have led a hand-to-mouth existence  
ever since.

New York Strikers.

By Associated Press.  
NEW YORK, July 25.—The drivers of  
the street-cleaning department all re-  
turned to work this morning, amicable  
arrangements having been arrived at.  
The strike of the workmen on the  
public schools is extending and now  
includes 24 grammar schools. Only a  
few non-union men are at work on  
these. The trouble may seriously in-  
terfere with the opening of the schools  
in the fall.

More Labor Troubles.

By Associated Press.  
NEW YORK, July 25.—In Brooklyn  
trouble has been engendered by the  
roofers' strike of several weeks ago ex-  
tending rapidly to other trades. The  
plumbers and gas-fitters have been or-  
dered to tie up to-morrow. Their  
action is in sympathy with the roofers  
and sheet iron workers, who are strik-  
ing for eight hours.

Bar silver, 108 3/4.

NEWS NOTES.

The black rot is destroying the  
grapes in the lower part of New Jersey.  
Rich lead discoveries are said to  
have been made in Hickory county, Mo.

The four big Minneapolis breweries  
have consolidated with a capital of  
\$1,000,000.

An Indian burial ground has been  
discovered on the shore of Lake Au-  
burn, Maine.

A large number of Indianapolis  
saloon-keepers have been indicted for  
violating the Sunday law.

The City Clerk of Birmingham, Ala.,  
is short in his accounts, and has been  
suspended pending investigation.

A barn near Fairmont, N. J., is  
covered, it is said, by shingles that  
was put on it when the structure was  
built in 1781.

Factory Inspector Connolly is going  
to enforce the law in New York State  
requiring the weekly payment of  
wages to employees.

A brother and sister who were sepa-  
rated forty-five years ago at the auc-  
tion block at Virginia, met the other  
day at Gloomda, Ill.

Kansas farmers are marketing their  
hogs. Their prospect for corn is grow-  
ing worse and they fear they will not  
have enough for food.

Thunder Bay river, in Michigan, is  
jammed with logs for a distance of  
thirty miles. They are packed in an  
almost unseparable mass.

A woman who died at Tremont,  
Penn., a few days ago weighed 410  
pounds. A year ago she weighed 400  
pounds, but sickness reduced her weight.

"Fabulous wealth" is to be gouged  
out of the bosom of an alleged gold-  
bearing mountain near Dahlonega,  
Ga., by a company organized with a  
capital of \$2,000,000.

New England and Southern capital-  
ists are about to establish in Bos-  
ton the American National Bank, with  
a capital of \$1,000,000, to make a  
specialty of Southern business.

Will be paid to any competent chemist who will  
find, on analysis, a particle of Mercury, Potash,  
or other poisons in Swift's Specific (S. S. S.)

AN EATING SORE.

Henderson, Tex., Aug. 23, 1889.—"For eight-  
teen months I had an eating sore on my tongue.  
I was treated by the best local physicians, but  
obtained no relief, the sore gradually growing  
worse. I concluded finally to try S. S. S., and  
was entirely cured after using a few bottles.  
You have my cheerful permission to publish the  
above statement for the benefit of those similarly  
afflicted." C. R. McJannet, Henderson, Tex.  
Treatise on Blood and Skin Diseases mailed free.

## 5 O'CLOCK EDITION.

### Wholesome Laws Needed.

Under the above heading the Carson Tribune of the 24th instant editorially says:

It will stand the voters of Nevada in hand to be very particular in the choice of their representatives in the coming Legislature, for never in the history of the State was there more need of the enactment of wholesome laws than at the present time. The expenses of the State Government should be reduced, and it will need men of determination, as well as ability, to amend existing evils. There is not the least doubt but that a Constitutional Convention will be demanded, for wherever one goes the public sentiment seems to lean in that direction, and as there is no other method of reducing expenses but by that means, it should be considered as a sine qua non by every property owner and taxpayer.

The remark is frequently made that the selection of legislators will be had with a view to the selection of a U. S. Senator this year, and to a certain extent that may prove the case, but surely honest and intelligent men would be more likely to select the best and most popular gentleman for the position than a lot of political hangers-on to the party and the class of ignoramus the State has had imposed on it heretofore. Not that it is every Legislature men good and true have been found, but as a rule their good work has been overruled by a class that should have never sat in either house—men who have taken "Sine die" to signify Sabbath day and such like.

During the last Legislative term committees from both houses were appointed to visit the California Legislature at Sacramento with a view to the acquisition of certain land belonging to that State and bordering on ours, but what came of it but a pleasant visit? Nothing and the subject matter lies buried in the waters of oblivion, so we repeat that if the taxpayers desire to see the State in a flourishing condition it behooves every one to stand boldly forward and demand the election of competent and honest gentlemen as representatives. Elect that class and our glorious State will increase in population a hundred-fold; our sagebrush plains will gladden with golden grain; our cattle will browse on a thousand hills, and within another decade there will be no need to patronize the Eastern States or California for the necessities of life, but flour, hams and bacon will be produced at home and plenty left for exportation.

The Anglo-German agreement for the partition of Africa concedes to France the right of extending her influence from Senegambia and the upper Niger to Lake Tchad. This surrenders to France the Sudan nearly to the borders of that portion claimed by Egypt, but held by the Mahdi. It is a fertile country, occupied by semi-civilized populous States, Mohammedan in religion, and in constant trade communication with the Barbary States. France already contemplates a railroad across the Sahara to connect Algeria with the Sudan. An expedition about to be sent out will define more clearly the possibilities of this great Central African empire, connecting on the north with the Mediterranean and on the south with the French possession on the north bank of the Congo.

JUDGE SAWYER's recent decision practically settles the matter of remanding Chinese captured in attempting to enter the United States. It has been shown that it is possible to blockade our southern border against them. Physical conditions favor the task. We may next look for a larger and more systematic invasion from Canada. There are no deserts there, and the Canadian Pacific runs parallel with the boundary. It will be a harder frontier to guard.

THE Silver State contains nearly a column of editorial contentions on the admission of Idaho and Wyoming; but then that paper would not be the exponent of genuine bourgeoisism unless it adversely criticised all movements in the line of progress.

### BITS ABOUT FLOWERS.

BALRAMS can be used for decorative purposes if grown in pots in light, rich soil.

For lice on the rose bush use white hellebore, and use the same for the currant worm.

PINKS should be supported by stakes to preserve their bloom in perfection and unsoiled.

THUNDERBOLTS are very pretty and easily grown annuals and are worthy a place in every garden.

ANTHRIMMUS will bloom all the finer, if no seeds are allowed to form during the summer. This really applies to most flowering plants. Always remove the fading bloom.

Fon cut flowers, or corsage bouquets the amateur should have geraniums, gladioli, lilies and tuberoses. All of these stay fresh for a long time after being picked even without water.

BULBS when done flowering may be lifted as soon as the leaves begin to wither. Place them in clumps in a shady place, with a little soil over their lower parts to ensure perfect ripening.

PILLOX and plants of similar growth should be pinned down early in the season to make them cover the ground. Pins can be made from wire by cutting in suitable length and bending in hair-pin shape.

Slips of oleander and other hard-wooded plants may be rooted in the simplest way by setting close together in a low vessel nearly full of a puddle of sand. This is to be put in a light, warm place, and the sand kept very wet.

ROSES should by all means receive clean culture. The surface of the bed must never be allowed to become grassy, nor to bake nor otherwise get hard. Every week or two during the growing season, or after every rain, the ground should be stirred with hoe and rake, and not a sign of weeds nor grass be allowed.

INSECTS are the dread of the rose grower. Let it be borne in mind that it is the under-fed and otherwise neglected plants that invite the largest numbers of pests. Prevention in the way of a thoroughly prepared and cleanly tilled soil, fertility, watering, pruning, etc., should therefore be the first resort against their attacks, and thus nearly all trouble will be cut off.

THE hybrid perpetual class of hardy roses give the best general satisfaction to the careful cultivator. They are not in reality perpetual bloomers, but derive their name from the fact of their being hybrids between the hardy summer-flowering species and the perpetual bloomers. Many of them throw off a few flowers at intervals through the summer, with a fair second crop in the autumn.

### THE KAFFIR'S DIAMOND.

An African Story Which Reads Fairly Well in America.

"There's the most beautiful diamond I have ever seen during an experience of thirty years with the sparkling gems," said a veteran diamond merchant to a Philadelphia man, as he held up a stone that seemed bathed in fire.

"That stone has a tragic history," continued the jeweler. "It comes from the De Boers mines in South Africa, and was discovered by a Kaffir employed by the company. His practiced eye saw that the gem was a marvelous one for beauty of color, and a desire to steal it overcame him. He did steal it, and to conceal the diamond—the Kaffirs work almost naked in the diamond mines—he cut a hole in his flesh under the arm. But the wound did not heal, and the observant eye of the overseer detected what was the matter. A few days afterward he charged the Kaffir with having stolen a diamond, but the man denied it.

"When the foreman reached for his sword the thief made a dash and ran toward the outskirts of the kraal like a deer. The foreman followed him, but the fleet-footed Kaffir outstripped him. He knew that a severe punishment awaited him if captured, and centered all his efforts on escaping with the stone, the value of which would have made him rich for life. But the foreman was equal to the emergency, and shot the Kaffir through the back just as he was gaining the bush. His body was dragged back into the kraal, his arm was cut open and this gem was taken from the incision."—Jeweler's Weekly.

### FISHING FOR PEARLS.

The Divers in Bahrain Are Mostly Slaves from Africa.

The pearl fishery is the great occupation of the Bahraines. The pearls of their seas are celebrated for their firmness and do not peel. They are commonly reported to lose one per cent. annually for fifty years in color and water and after that they remain the same. They have seven skins, whereas the Cingalese pearls have only six. The merchants generally buy them wholesale by the old Portuguese weight of the *Chao*. They divide them into different sizes with slivers and sell them in India, so that, as is usually the case with specialties, it is impossible to buy a good pearl in Bahrain.

Diving here is exceedingly primitive; all the necessary paraphernalia are a loop of rope and a stone to go down with, a curious horn thing to hold the nose, and oil for the office of the ears. Once a merchant brought with him a diving apparatus, but the divers were highly indignant, and leaguely against him, refused to show the best banks. In this way the fisheries suffer, for the best pearls are in the deeper waters, which can only be visited late in the season. The divers are mostly negro slaves from Africa; they do not live long, poor creatures, developing awful sores and weak eyes, and they live and die entirely without medical aid.—Cornhill Magazine.

### A Good Temperance Story.

John B. Gough used to tell the following story, though the joke was at his own expense. Once, while on a lecturing tour through England, he was introduced to a small village audience in these terms: "Ladies and gentlemen—I am the honor to introduce to you the distinguished lecturer, Mr. John B. Gough, who will address us on the subject of temperance. You know that temperance is thought to be a very dry subject, but to-night, as we listen to our friend the horator from the hoocean, we hope to see the miracle of Samson repeated, and to be refreshed with water from the lawns of a hoocean."

### MISCELLANEOUS.

#### Steady Progress

Has characterized Hood's Sarsaparilla ever since it was placed before the public. Wherever introduced, its sales have grown from year to year, until now it is the most popular and most successful medicine offered. Any druggist will confirm this statement. The secret of this success lies in the fact that Hood's Sarsaparilla is a medicine of merit. It does actually accomplish all that is claimed for it, and when given a fair trial, is reasonably certain to be of benefit.

**Positive Statements.**  
"Since Hood's Sarsaparilla has been in my hands for sale I have had frequent and reserved testimonials in its favor. Although carrying this preparation for less than one year, my sales have been greater than of any similar preparation, and the testimonials in its favor are at once positive and personally noticeable." A. WAGNER, Hallsburg, Cal.

**Sells On Its Merits.**  
"My boys say, 'Papa, why don't you buy more of Hood's Sarsaparilla at a time; we are always short.' It sells on its own merits." F. BRAL, Portland, Oregon; the oldest druggist in Oregon.

**N. B. Be sure to get only Hood's Sarsaparilla.**  
Sold by druggists. \$1.50 for \$3. Prepared only by C. C. HOOD & CO., Apothecaries, Lowell, Mass.

**100 Doses One Dollar**

### HOTELS.

#### The Phoenix Hotel

A THREE-STORY BRICK STRUCTURE, entirely new, and is situated near the V. & T. C. P. and N. & O. Depot.

The Rooms are well lighted and sunny and handsomely furnished.

JOTTINGS.

No matter how high the thermometer runs in other parts of the town, the Riverside Hotel park is delightfully cool and pleasant.

C. J. Brookins carries the best tobacco, both chewing and smoking; also the best brands of both imported and domestic cigars.

The Arcade Hotel and Restaurant is where you can always obtain a nice room and bed, and as for a meal as you ever sat down to in the town.

Instead of giving yourself the cramp by trying to cool off with ice water, drop in at J. J. Becker's for a schooner of his cool Coca or Sacramento beer.

Richard Herz's jewelry store is where you want to go for a watch or any article of the best jewelry. All kinds of engraving promptly done.

An examination of C. A. Thurston's stock of literature will convince you that he deals in the choicest only. He also carries all the leading San Francisco and Sacramento dailies.

Not a poor melon among the large lot received by Leadbetter from Lodi yesterday, and not a single cholera morbus in one of them. If you want a sweet, juicy melon, go to Leadbetter's.

A Michigan Central Railroad Employee Wins His Case After Seven Years Contest.

While employed as agent of the Michigan Central Railroad Company, at Akuska, Mich., my kidneys became diseased, and from an impotency and impure state of the blood, my general health was entirely undermined. I consulted the leading physicians of this city and Ann Arbor, and all pronounced my case Bright's disease. In October last I began taking Hilbard's Rheumatic Syrup, and am to-day a well man. It affords me pleasure to render suffering humanity any good that I can, and I wish to say that I think it is the best blood, kidney and liver medicine in the world.

E. L. LEBLANC, agent M. C. R. R., Albion, Mich.

Sold by S. J. Hodgkinson. Prepared only by the Wright Medicine Company, Detroit, Mich.

An Old Soldier's Story.

In the late war I was a soldier in the First Maryland Volunteers, Company G. During my term of service I contracted chronic diarrhoea, since then I have used a great amount of medicine, but when I found any that would give me relief of the disease, I found it in Chamberlain's Colic, Cholera and Diarrhoea Remedy was brought to my notice. I used it and will say it is the only remedy that gave me permanent relief and no bad results follow. I take pleasure in recommending this preparation to all of my old comrades, who, while giving their service to their country, contracted this dreadful disease as I did, from eating unwholesome and uncooked food. Yours truly, A. E. Shoemaker, Halsey, Ore. For sale by Shoemaker & Co.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price, 50 cts. and \$1 per bottle at Finninger's drug store.

Unpleasantness Avoided.

Several months ago, Mr. Henry Plummer of Clements, Cal., who is subject to cramps, was taken with a severe attack. He had been accustomed to get relief by dosing with morphine, but the doseable effect that followed would make him miserable for hours after the cramp had been relieved. I persuaded him to try Chamberlain's Colic, Cholera and Diarrhoea Remedy. He was much pleased with its effect as it was almost instantaneous, and no disagreeable after effects accompanied its use. Chase Hamer, Manager, Farmers' Trade Union, Clements, Cal. For sale by Shoemaker & Co.

Is Consumption Incurable?

Read the following: "Dr. C. H. Morris, Newark, Ark., says: 'I have known of Consumption, and friends and physicians pronounced me an incurable consumptive. Begun taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made.'"

Heed it! It is not been for Dr. King's New Discovery for Consumption I would have died of lung troubles, was given up by doctors, am now free of health. Try it. Sample bottles free at Finninger's drug store.

Spring Medicine.

Dr. Gunn's Improved Liver Pills are specially adapted for correcting spring disorders, such as impure blood, tired brain and worn-out body. They act promptly on the liver and kidneys, drive out all impurities from the blood, and malaria from the system. Only one pill at a dose. Try them this spring. Sold at 25 cents a box by S. J. Hodgkinson.

Why endure sleepless nights, with a dry hacking cough, when Fryer's Abietine will give you rest. (It contains no opium. Price, 75 cents. Sold by Wm. Finninger. The original and genuine Abietine preparation is the only one that is the signature of Dr. F. J. Fryer.)

A RUNAWAY ACCIDENT.

Joe Capurro Thrown Out and Badly Hurt.

About half-past 7 o'clock this morning Joseph Capurro, who owns a ranch near Laughton's, was driving his double gray-horse team and wagon, loaded with vegetables, along Commercial Row, disposing of his produce to the various grocery merchants along his route. When near the corner of Virginia street one of the lines dropped, and, losing his presence of mind, he began pulling strenuously on the other. The animals, feeling that something was wrong, took fright and started to the left at breakneck speed, straight across the railroad track. They barely skinned by the corner of the scale car and the engine house, the heavy wagon upsetting three times, and with each fresh tug of the horses righting itself, looking exactly like a ship in a billowy sea. After speeding over the platform of the engine house, the wagon hopped along on three wheels, one being smashed to smithereens, and the frightened team was finally captured near Lake's stable. The force of the collision with the track was so great as to break off the end of one of the railroad ties.

In crossing the rails the driver, Mr. Capurro, was flung high in the air, fortunately landing between two sections of track.

A large crowd gathered to the assistance of the fallen man, who lay partially insensible, and he was carried to the drugstore of S. J. Hodgkinson. He was badly cut in the neighborhood of the right eye, which was nearly closed, and also sustained severe contusions on the right shoulder. After being removed to the premises of Louis Della Piazza a physician was called in, under whose care he now is.

PERSONAL.

Miss Helen Martin of Carson is visiting Mrs. W. Pinner and daughters.

Mrs. Louis Dean returned this morning from an extended trip to California relatives and friends.

C. Winchell, the jockey rider of the victorious El Rio Rey, left this afternoon for his father's ranch in Honey lake valley.

Mrs. J. E. Stewart left this morning for Scott's mineral springs between Truckee and Lake Tahoe, where she will spend the balance of the excessively hot spell.

Rev. R. H. Bready and family will leave this evening for San Francisco, where they will spend a couple of weeks, when they will leave for the East via the Northern Pacific.

The Judicial Mill.

Justice Young this morning glanced his judicial eye over a raft of four unfortunate stranded in Reno and administered the following dose of the statutory law of the sagebrush State:

Thomas Long, for disturbing the peace and quiet of peace-loving Reno—trial set for 7 p. m.

A. M. Frost, August Nettelman and Albert Osborn, all arrested for vagrancy, were allowed to go on their own recognizance till 7 p. m., which they accepted as a polite hint to skip the town at the earliest opportunity, either by brakebeam or counting ties, in preference to having the county board them at the expense of the taxpayers.

Five Young Drunkards.

The Piche Record of the 19th inst. says: Late Tuesday night the residents of Lacour street were startled from their slumbers by what seemed to be unearthly yells, but which proved to be the mauling ravings of five of our very young men. If such an occurrence happens again we shall consider it our duty to publish their names, for a drunken carousal is getting to be considered the proper thing among the gang.

Piche is not the only town in the State that is disgraced by this kind of vermin, who seem to think that getting drunk and smoking cigarettes will make men of them.

Something Needed.

This is an age of progress in many ways. It is now demonstrated beyond doubt that food cooked by steam is more healthful than by the boiling process, besides being more palatable and nutritious. Mr. Bready, an agent for the best steam cooker in the market, is now in Reno with a sample and he will call on the housekeeper and show her an article that is indispensable. Don't fail to give him a hearing when he calls, and he will explain his many fine points. His advertisement in another column gives an illustration of this needed and economical kitchen utensil.

An Entomological Study.

The electric light has developed many curious vagaries of insect life in Reno. In some portions of town, especially in the lamps in front of the Granite Saloon, J. J. Becker's and the Phoenix Hotel, the globes are half-full every morning of moths, gnats and mosquitoes, while in other portions of town the lights do not attract a single insect. Some of the globes also will attract only youthful June bugs and others moths. The present warm weather has developed a swarm of insect pests, and the cleaner of lamps for the Electric Light Company has frequently to wash the light globes every day.

Want All The Vices.

The Elko Independent says: The Silver State accuses papers that oppose the lottery scheme of hypocrisy because our statutes sanction gambling. The Silver State seems to think that since our laws authorize one form of iniquity all restraint should be thrown off, and every device for fleecing the unwary should be made legal. Because we have hell let us also have high water.

My New Quarters.

My patrons are hereby notified that I have moved my cigar and tobacco business from the Cokes building to my new store next to John Sanderland's clothing department, where I will be pleased to see all in want of my line of goods.

A. NELSON.

Advice to Mothers.

Man Winslow's Soothing Syrup should always be used for children teething. It soothes the child, cures the gums, allays all pain, cures wind colic, and is the best remedy for diarrhea. Twenty-five cents a bottle.

BREVITIES.

Local and General Intelligence.

S. A. Hamlin informs the GAZETTE that the new State Line mill will be ready to start up next Monday.

Sheriff DeWard of Elko county arrived last evening with two prisoners for Carson, sentenced to one year each for burglary.

This morning's early east-bound express was two and a half hours late, caused by a fire in the snowsheds on the other side of the Summit.

Lovers of the Virginia weed should patronize Marcus Fredrick, who deals in the best only. He also cleans and repairs clocks, watches, jewelry and silverware.

Captain Warner, who heretofore has been fishing for silver trout, has discovered a place in the river where land-locked salmon bite ravenously. He brought in a large string of that quality last evening.

Patrick Crowley, the Savage mine murderer, was returned to Virginia City yesterday for a preliminary examination, which was deferred until next Monday in order to give the prisoner time to secure counsel.

One of the coolest spots in town is the old fountain depot garden, which scores of people frequent every day. Under the cooling shade of the cork elm trees, and with the soothing trickling of the fountain, they become as cool as cucumbers.

Warm weather often causes extreme tired feeling, debility and the weakened condition of the system, diseases arising from impure blood are liable to appear. To gain strength, to overcome disease and to purify, vitalize and enrich the blood, take Hood's Sarsaparilla.

The work of laying the new cement sidewalk in front of the First National Bank building has been held back on account of the delay in substituting a fine iron sidewalk cover to the entrance to the cellar in place of the old wooden one. It will be a great improvement over the old wooden frame when the cement walk is complete.

Dr. P. T. Phillips, formerly of Reno, in medical partnership with his brother, Dr. W. A. Phillips, was married on May 29th, near Fremont, Ohio, to Miss Ruth Liles. Numerous invitations to the wedding were sent to the doctor's many friends here, who regretted their inability to attend. After the honeymoon the newly-wedded couple settled down in Fremont.

A NEW DEPARTURE.

Profits of Pacific Coast Advertising Agencies.

The Carson Appeal says: While the California Press Association was in session in Santa Barbara some very important business was transacted. An executive session was held, to which the editor of the Appeal was invited, and the question of the swindling advertising agencies of San Francisco was very fully discussed.

For years past the advertising agencies have controlled the advertising of the State and reaped enormous profits by dealing out the advertising to the press, and after deducting a 25 per cent. commission paid the balance in type, roller composition and bad ink. This is equivalent to a commission of 50 per cent., and is a swindle of the first water.

One firm whose slippery practices with newspapers are notorious, cleaned up \$50,000 last year out of the publishers of the Pacific Coast. The papers did all the work, and they made all of the money.

The various publishers related their experience with this firm, and after comparing notes, decided to cut loose from them altogether and place their advertising business in the hands of their own agent, whose charge for the work of securing advertising will be 5 per cent. and the balance will be paid in cash instead of old roller composition and plate matter.

The authorized agent of the California Press Association is John F. Uhlhorn, No. 305 Bush St., San Francisco, and he is one of the best solicitors of advertising on the coast.

The writer, a member of the Nevada Association, assured the California Association that most of the Nevada publishers would be glad to combine with California and deal through the new agency.

DEEP GOLD MINE.

A Recent Discovery in a Battle Mountain Artesian Well.

An artesian well is being sunk in the Humboldt Valley at Battle Mountain by J. A. Blossom. Flowing water is found at Battle Mountain at a depth of from 125 to 175 feet, but the flow is limited, and Mr. Blossom is sinking deeper to see if depth will not increase the flow. This well is now down 640 feet and the gravel brought up by the pump yields about two dollars in gold to the pan. That, of course, would pay well if the expense of extracting it was not so great. This discovery has created considerable excitement at Battle Mountain, and it is possible that means will be devised for getting the gold. The formation is nearly all clay, and a shaft can be bored through it by a large auger run by machinery.

Republicans' Attention.

A meeting of the Republican County Central Committee will be held at the District Court rooms Reno, Nevada, July 28th at 7:30 p. m. A full attendance of the Committee is desired as business of importance will be transacted in connection with the coming campaign. All Republicans having the success and interest of the party at heart are invited to be present.

JOHN F. ALEXANDER, Chairman.

S. J. HODGKINSON, Secretary pro tem.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or so pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Wm. Finninger.

A BASEBALL SERMON.

By One Convert With the Rules of the Game.

In order to keep up with the baseball times, a Dakota minister recently preached the following sermon:

My Christian players, it is now time for you to begin to bat Satan's curves. Do not pound the air, but bat him over the fence. Get out on the diamond of Christianity and catch every fly made by Satan's men. You should make a home run for morality and the side of right. No one-bagger will tally on the great judgment sheet. Every player should make a score of earned runs for religion. Do not steal out too far from the base of righteousness and get caught. The devil may hold the ball in his hand and deceive you and rub it on you when you are not watching. Never, my Christian nine, never try to slide in on some member's faults. The error made by other members of your club will not save you on second. Every Christian team should stand on its merits and good Christian playing. You should strike, for heaven's sake, right from the shoulder, and do not knock sky fouls for Satan's men to catch. Make no balks in your unerring faith, and in the great judgment day you will receive for your reward seventy-five per cent. of the gate receipts.

A LOCOMOTIVE TELEPHONE.

Which Has Been Tested By The B. & O. Railroad.

The Mining and Scientific Press says: One of the latest applications of electricity that has been reported is to what is called a locomotive telephone. It was tested recently on the B. & O. Railroad, and is said to have worked very satisfactorily. The apparatus is described as consisting of a single iron bar laid between the tracks, through which a current of electricity is passed. A brush is fixed upon the engine, which is at all times in contact with the bar, and when two engines approaching each other get within a mile or more apart, bells ring in the cabs. After the engines have been stopped, the engineers can make use of the telephone for abusing each other for being "on my line." This may be a very good thing, says an exchange, but if the uncertainty of the ordinary telephone are any criterion by which to judge, those bells will be very likely to ring at wrong times and give false alarms, until they are paid no more attention to than was the boy who cried "wolf" when there was no wolf, or they may fail altogether. We pin our faith to the block signal.

THIRTY YEARS' PRACTICE.

A Letter from an Eminent Physician.

MR. EDITOR: At the risk of incurring a proprietary preparation, I have a few words in favor of a new laxative principle. But first, how I came to discover it. A patient asked about taking Joy's Vegetable Sarsaparilla. As sarsaparilla usually contains mercury or iodine I objected, and asked for the formula, which finding purely vegetable, and so mild as to be to my mind almost inert, I consented. Imagine my astonishment when perfect laxative action was reported. It has two great points. First, being purely vegetable, it is (unlike mercury) not cumulative in the system, being easily cast off by the digestive process; and second, it is effective with a less quantity of the cathartic principle than has hitherto been attainable. It is in this respect ranks as a discovery, and approaches the ideal, viz: the best medicine consistent with the greatest good. It harmonizes natural laxative action and perfect safety, and should interest both the public and the profession.

A CITY PATENT OF A LAXATIVE VEGETABLE. San Francisco Examiner, March 10, 1890.

Peace on Earth.

Awaits that countless army of martyrs, whose ranks are constantly recruited from the victims of nervousness and nervous diseases. The price of the boon is a systematic course of Hostetter's Stomach Bitters, the finest and most genial of tonic nervines, permeated with reasonable persistence. Easier, pleasanter and safer than any other cathartic, it cleanses the system with pseudo-tonics, alcoholic or the reverse, sedatives and poisons in disguise. "Give Nature's sweetest restorer, balmy sleep." It is a complete recuperator of weak nerves, and this virtuous franchise brings usually the consequences of sound digestion and increased vigor, the great
